

Exuma Technologies Inc. D/B/A DockMaster Marine Management Systems Selects Carleton to Provide Loan Origination to Marine Dealers Nationwide.

South Bend, IN 10/01/09 – Exuma Technologies Inc, makers of DockMaster Software announced today that it has contracted with Carleton Inc. to incorporate Carleton's industry leading SmartCalcs loan origination software as part of DockMaster Software's industry leading suite of marine dealer management software applications. DockMaster is a complete management information solution for marinas, boatyards, boat dealers, boat builders and marine retailers/distributors.

As a leader in marine lending automation, DockMaster recognized the importance of having a long term solution for providing compliant computations. For the last forty years, Carleton has provided nationwide compliance support for all the lending and leasing computations used by many of the major banks and finance companies.. This partnership provides DockMaster's clients additional support to meet their lending calculation needs. DockMaster Marine Management Software's exclusive "Boat Sales & F&I Module" provides a comprehensive retail financing software solution to marine dealers nationwide. The robust calculation capabilities of Carleton's SmartCalcs will allow the dealer additional point of sale options that include all debt protection products and after-market add-ons.

"DockMaster is pleased to partner with Carleton and leverage their unique specialization. Carleton as a partner means that our dealer clients will not only have the security of knowing that their loan calculations are accurate and compliant but will also make their Finance & Insurance products more robust and saleable. We are committed to bringing additional value to our clients by making Carleton's SmartCalcs functionality part of our solution" Said Cam Collins, President & CEO of Exuma Technologies, Inc.

"Carleton's years of experience supporting retail lending computations will continue to assure the DockMaster dealer that their F&I system will be compliant with all the state and federal lending requirements now and in the future. Carleton's customer-first services strongly compliment DockMaster's service philosophy. We appreciate this opportunity to partner with DockMaster." said Pat Ruszkowski, President of Carleton, Inc.
